

## Data Centres – Economic and Social Benefits

### **Mr FERGUSON question to MINISTER for INNOVATION, SCIENCE and THE DIGITAL ECONOMY**

Quite a number of my constituents in my electorate of Bass have been raising various concerns and perspectives around data centres. I ask the Minister to outline how the Government is ensuring that data centres are providing a net economic and social benefit to our community. I particularly draw to the Minister's attention to questions from constituents around energy and water consumption. I also add to my question, how is the Government supporting the community with accurate information around these developments?
