

Peter Murrell Reserve – Fire Hazard Reduction Burns

Mr GEORGE question to MINISTER for PARKS

My question is from constituent Ron Booth of Blackmans Bay, who's concerned about fire hazard reduction in the Peter Murrell Reserve. Ron remains concerned there is a substantial fire risk to his residence that is being overlooked. Will you please ensure that someone from PWS meets on site with the residents to discuss and answer these concerns, and will you provide an update to the House on bushfire prevention actions planned in the next 12 months in this reserve?
