George Town – Future Economic Prospects

Mr FAIRS question to PREMIER

My question is from Cheryl in George Town. Cheryl's a working mother and has hopes that her children will be able to grow up and get jobs in the George Town area to keep her family together. Following the unfortunate closure of Liberty Bell Bay, she is nervous about the future for her town. Noting the recent release of the Northern Tasmania Economic Summit summary report, can the Premier please outline what the future of George Town might look like for Cheryl and her children?
