Dear Michael,

RE: Erratum regarding inquiry evidence

After giving evidence to the HAB's inquiry into police misconduct on 2 October 2026, a colleague notified the Alliance that contrary to our evidence, the Tasmania Police Manual was available online. This error occurred by way of clicking on the hyperlink in the *Tasmania Police Family Violence & Sexual Abuse (including Child Sexual Abuse) Policy*, which appears to have been linked to an intranet copy of the Manual, and thus not publicly available.

Importantly, even when searched online, the primary link to this Manual is the 2018 version, and the most current version was listed on Routine Information Disclosures page. If the intent is for this document to be publicly available, all hyperlinks in other policies must be linked to publicly available versions, and that the up-to-date Manual is made easily identifiable and available online.

Yours sincerely,
