

**JOINT SELECT COMMITTEE ON ENERGY MATTERS – QUESTIONS ON NOTICE**

**Once Marinus Link is operational, approximately how many MLPL employees will be employed in Tasmania?**

Consistent with the [market benefit modelling completed by Ernst and Young \(EY\)](#) (page 19) provided to the Committee alongside MLPL’s initial submission, MLPL expects that approximately six FTE’s will be directly supported through the operational phase of Marinus Link’s Stage 1 in Tasmania.

Please see excerpt from the report below.

**Value add and FTE years supported in Tasmania during operations of Project Marinus**

	Marinus Link - Stage 1		Marinus Link - Stage 2		North-West Transmission Developments	
	Value add (2023, \$m)	FTE	Value add (2023, \$m)	FTE	Value add (2023, \$m)	FTE
<b>Annual</b>						
Direct	3.0	5.9	3.0	5.9	1.6	3.2
Indirect	2.1	7.1	2.1	7.1	1.2	3.9
Induced	0.9	5.6	0.9	5.6	0.5	3.1
<b>Total (2030-2050)</b>						
Direct	62	124	62	124	34	68
Indirect	44	149	44	149	24	82
Induced	19	118	19	118	10	65

Additionally, MLPL expects some Tasmanian based corporate roles during the operational phase, but these have not been modelled and would be in addition to the above.
