

Recommendations of the Independent Review of the Climate Change Act

Dr WOODRUFF question to the PREMIER

My question is from my constituent Cherie in the Huon Valley. She says: 'A few weeks ago, my first grandchild was born. I have a responsibility to him and all of my community to keep them safer from climate impacts. I'm devastated to hear the Premier's response to the Independent Review of the Climate Change Act. Without action, Tasmania will continue to fail to reduce emissions from most sectors, like it has failed for the past 30 years. Unless the government takes the opportunity to implement the recommendations of the Independent Review, my new grandchild has a bleak future. I ask the Premier: will you prioritise the public good over profits of emitters and implement the recommendations of the Climate Change Act Review?'
