

Mount Field – Visitor Management Plan

Ms BADGER question to MINISTER for PARKS

My question is on behalf of constituents in the Upper Derwent Valley. For years now, we have known that the issues at Mt Field with tourism are coming to a head, that it is time for a proper plan for visitor management and investment. Has this government walked away from the touted Mt Field master plan that was part of UNESCO's World Heritage Committee reactive monitoring mission done almost a decade ago now and what is happening with the \$7.8 million investment that's been in the last two budgets? I'm sure it'll be back in this budget on Thursday. You've had five options to invest in that have been on your desk since March 2025. What are you actually investing this money in, if at all?
