

## St Helens Neighbourhood House

### **Ms BUTLER question to MINISTER for COMMUNITY and MULTICULTURAL AFFAIRS**

My constituent question is from Scott of Seymour, who writes: in November 2025, you were contacted by concerned staff and volunteers of the St Helens Neighbourhood House, citing concern with some members of the board and their treatment of staff and volunteers. You ignored the plea for assistance. The Premier has now had to intervene, as the situation in the subsequent six months has snowballed to the point that the Neighbourhood House is now unable to provide essential services to the community. Will you place the Neighbourhood House into temporary administration to restore services and programs for vulnerable people? Will you amend the act to ensure a situation like this cannot happen again? What actions will you take to recreate the professional and caring Neighbourhood House? The dedicated staff and volunteers are desperate to get back to work.
