Bridport – New Public Pier and Boat Ramp Facility

Mr FERGUSON question to MINISTER for INFRASTRUCTURE and TRANSPORT

My question is on behalf of my constituents of Bridport and asks for an update on the Government's building of the new public pier and boat ramp facility at Bridport. Secondly, what are government agencies and Dorset Council able to do to update me and members in relation to the feasibility study into the proposed all-tide access to the sea from the Brid River?
