

West Coast Internet and Mobile Phone Service

Mr JAENSCH question to MINISTER for INNOVATION, SCIENCE and the DIGITAL ECONOMY

Last weekend's inaugural DIVERGE Skyruns festival at Queenstown was an outstanding success. Congratulations to all involved who organised and participated. However, 1500 additional mobile phone users and content creators in the neighbourhood highlighted and compounded the problems that local residents and businesses in the area face every day with telecommunications and the internet. My constituents there are asking: what is being done to improve internet and mobile phone services for locals and visitors to the west coast?
