Use of Generative AI in TASC Course

Ms DOW question to MINISTER for EDUCATION

My constituent question is from students at Hellyer College in Burnie. Students from Hellyer College are concerned about the use of generative AI in the Introduction to Sociology and Psychology Tasmanian Assessment, Standards and Certification (TASC) subject at Hellyer College. My question to the Minister is: is she concerned about the use of generative AI in that TASC course, and will she meet with them to discuss their concerns?
