LEGISLATIVE COUNCIL

SESSION OF 2025 – 2026

(FIRST SESSION OF THE FIFTY-SECOND PARLIAMENT)

VOTES AND PROCEEDINGS

UNCORRECTED PROOF

No. 55

THURSDAY, 29 OCTOBER 2026

1 COUNCIL MEETS.— The Council met at 11.00 o'clock a.m.

2 ACKNOWLEDGEMENT OF TRADITIONAL PEOPLE.— The President said:

"We meet today on Tasmanian Aboriginal land. We acknowledge and pay respect to the Tasmanian Aboriginal people and elders, past and present. We recognise them as the first inhabitants and the continuing custodians of this land."

3 PRAYERS AND REFLECTION.— The President read Prayers.

4 HUMAN RESOURCES TRANSFORMATION PROJECT.— Ms *Forrest* asked the Honourable the Minister for Infrastructure and Transport —

(1) What is the total value of Tasmania Government funding provided to Sharp Airlines for King Island to mainland Tasmania and King Island to Melbourne services, broken down by financial year for 2024-25, 2025-26 and 2026-27; and
(a) what is the term and expiry date of the current agreement?

(2) Is the funding a fixed payment, a per-service payment, an underwrite of seats, or another arrangement?

(3) What minimum service delivery requirements are attached to the funding, including:
(a) the minimum number of weekly return services;
(b) minimum seat capacity;
(c) required days and times of operation, including seasonal variation; and
(d) reliability and on-time performance standards?

(4) Does the agreement permit Sharp Airlines to cancel scheduled services for commercial reasons such as low passenger loads or soft loads? If so, under what conditions, and what notice must be given to the Government and to passengers?

(5) Does a cancellation for soft loads count against Sharp Airlines' contracted service obligations, and are there abatement, penalty or claw-back provisions where contracted services are not delivered?

(6) How many cancellations have there been by Sharp Airlines, and the reasons for these cancellations, for the financial years 2024-2025, 2025-2026 and 2026-2027.

(7) What performance reporting does Sharp Airlines provide to the Government, how often, and is it published?

(8) Was the Government, or any agency, consulted or notified before Sharp Airlines decided to cancel the November services and any later services? If so, when?

(9) How many services across what date range were proposed for cancellation?

(10) What is the "review and consultation process" for poorly loaded flights referred to in discussions with Sharp Airlines, who participates in it, and how are island communities consulted?

(11) On Thursday 22 October 2026, Sharp Airlines notified passengers by SMS, email and in a follow-up phone call, that King Island–Essendon services, including SH927 on 19 November 2026, had been cancelled "at the direction of the Tasmanian Government". Your Ministerial Office has since advised that this was incorrect, and that the cancellations were an operational decision by Sharp Airlines due to soft loads. Has the Government sought a public correction from Sharp Airlines of its statement attributing the cancellations to the Government?

(12) Has Sharp Airlines given any assurance about management level approval of future customer communications in similar circumstances?

(13) What requirements, if any, does the agreement place on Sharp Airlines to consider passengers travelling for medical treatment, including those supported under the Patient Travel Assistance Scheme, when cancelling or rescheduling services?

(14) What assistance is available to King Island residents whose medical appointments or treatment are disrupted by cancelled services, including help with rebooking, extra accommodation or travel costs?

(15) Has the Government assessed the impact of the cancellations and the incorrect messaging on King Island tourism operators, including lost bookings and damage to visitor confidence? What is Tourism Tasmania doing to support affected operators and reassure the market?

The Minister answered:

(1) Funding of $189,000 was provided for the 2025-26 summer season, covering 1 November 2025 to 30 April 2026.

The current Grant Deed provides up to $260,940 for services from 1 October 2026 to 30 April 2027, when the agreement expires.

No funding was provided in 2024-25.

(2) The funding is a capped contribution of up to $260,940. Payments are made on a monthly basis to offset the gap between the airlines agreed operating costs and flight revenue on a per-flight basis.

(3) The Grant Deed does not set a minimum number of services to be delivered as this is ultimately a commercial decision, based on market demand. The committed public funds assist with offsetting commercial risk.

The Grant Deed provides for up to four services per week in October increasing to up to six services a week for peak travel dates over January to March 2027 between Melbourne and King Island.

Flights are operated using a standard aircraft type - the Metroliner - which provides 19 passengers seats on each leg.

There are no on-time performance standards set in the Grant Deed. If a service does not operate, Sharp is not eligible for any funding for that cancelled flight.

(4) Yes. The Grant Deed permits Sharp to cancel a scheduled flight where passenger demand is low. The Grant Deed requires Sharp to notify the Tasmanian Government within two business days of the cancellation or before the scheduled departure, whichever occurs first.

Notification of customers is managed by Sharp Airlines as part of normal business operations. The Grant Deed does not specify a minimum notice period for customers, as this is a commercial matter for Sharp Airlines.

(5) The Tasmanian Government is making a funding contribution, through a grant deed, to support delivery of a commercial service schedule determined by Sharp.

There are, therefore, no abatement, penalty or claw-back provisions where services are not delivered. The Grant Deed provides that no funding is payable for the service which has been cancelled.

(6) The management of this operational data is a responsibility of Sharp Airlines.

(7) Sharp provides monthly operational, patronage and financial reports during the funding period, followed by a final acquittal report, covering services operated, aircraft capacity, bookings, load factors, operating costs, passenger and freight revenue, and subsidy claimed.

The information is not published because it contains commercially sensitive operational and financial data.

(8) Building Tasmania and Tourism Tasmania routinely discuss forward flight schedules with Sharp Airlines. Sharp advised Building Tasmania and Tourism Tasmania on 12 October 2026 that it was reviewing some services in November and later months. These were the subject of discussion between Sharp and Tasmanian Government officials, with particular focus on the November services.

Sharp sent an email to staff in Building Tasmania and Tourism Tasmania on 22 October 2026 advising that it had cancelled flights across November and December 2026 and January and April 2027.

(9) Sharp advised that three services on 12, 19 and 26 November 2026 would be cancelled, together with 11 later services comprising three in December 2026, four in January 2027 and four in April 2027, for a total of 14 services across November 2026 to April 2027.

(10) The review consists of regular discussions between Sharp and officials from Building Tasmanian and Tourism Tasmania. Discussions focus on passenger demand, forward bookings and efficient use of the capped funding allocation. The objective is to maintain connectivity across the season and provide access for the community and visitors, taking into consideration both Sharp and REX schedules.

Sharp Airlines has been operating services to King Island for over 10 years and understands community needs based on both historical demand and forward bookings.

(11) Tasmanian Government officials contacted Sharp Airlines on the morning of 23 October 2026.

Sharp Airlines has written to me apologising for the communication, acknowledging that its statement that the cancellations occurred 'at the direction of the Tasmanian Government' was inappropriate.

Sharp Airlines will continue to engage with its customers directly, as is appropriate for a commercial airline. However, Sharp Airlines recognises the importance of consulting with the Tasmanian Government before significant scheduling changes are communicated to customers.

(12) As the air services between Melbourne and King Island are primarily a commercial operation, this is a matter for Sharp Airlines.

The Tasmanian Government understands that Sharp Airlines has assisted affected passengers with rebooking, or offered refunds where passengers prefer to travel with the alternative provider on this route.

(13) Medical needs of passengers travelling are not specifically addressed in the Grant Deed. In providing funding to support these flights, the Tasmanian Government's priority is to ensure the greatest overall connectivity and access to meet community needs and visitors, while ensuring efficient use of the capped funding allocation.

(14) Any rebooking of cancelled services including help with rebooking, extra accommodation or travel costs is an operational matter for Sharp Airlines.

(15) Schedule management is a core commercial activity for airlines. The circumstances in which the proposed cancellations were communicated was regrettable.

The Tasmanian Government has not undertaken an assessment of the impact of the cancellations given the ability of passengers to re-book on alternate services and the small total number of passengers affected.
