Land Titles Office Issues

Ms FINLAY question to MINISTER for PARKS and HERITAGE

Geoffrey Lord and Natalie Gorman of Newstead purchased land at Perth in April so they could build a secure home following a cancer diagnosis. Almost five months later, their title remained un-transferred and construction cannot begin. The report repeated errors by the Land Titles Office, including sensitive documents being sent to the wrong address twice, documents being lost, inadequate communication, and additional costs caused by the delays. Minister, will you urgently investigate why this transfer has taken so long, ensure Geoffrey and Natalie's matter is resolved without further delay, and review what went wrong to prevent other Tasmanians experiencing the same situation?
